Currently a have been assigned to one of our client company for a Project Development. And I am working on Software Development and Testing.

ERNST & YOUNG GDS | INTERN

Bengaluru,India | Jan 2022 – April 2022

I was trained in Java, MySQL,Angular & spring . And was assigned in a project to make a stock screener.I was a part of Front-end team, the technology used in the project are NodeJs ,AngularJS ,Angular Modules, Bootstap, TypeScript, SpringBoot, JDBC ,MySQL.

SKILLS

PROGRAMMING LANGUAGES

Java, HTML, CSS, Angular JS, Bootstrap, Spring Boot, MySQL, Junit, OOPs, Collection Framework

LIBRARIES/Frameworks

Angular, Spring Boot, Node.js

PROJECTS / OPEN-SOURCE

STOCK SCREENER | [LINK](#)

AngularJs, Bootstrap, SpringBoot, Sql, DOcker.

In this project 50 stocks get displayed in the dashboard page and features like pagination,search & filtersare also included in this page.You can also see details like Historical data & Key Performance Indicator for each stock separately.

EY CAREER WEBPAGE

Html, Css, TypeScript, AngularJS.

In this project I have made a same page as the EY carrer,While making this page i have used a various transitions,view and many other features.

PREDICTION OF DIABETES PATIENTS | [LINK](#)

Python, Data Science, ML, Jupyter Notebook.

The aim of this project is to diagnostically predict whether or not a patient has diabetes, based on certain diagnostic measurements included in the dataset. Several constraints were placed on the selection of these instances from a larger database.

CALCULATOR MOBILE APPLICATION

React, Html, CSS, JavaScript, React Native

In this project, I have made a Calculator for Mobile Phones using React Native. The main functionality of the app is to perform normal Arthimetic operations .
